-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tahara US 2002/0026003 in view of Corvasce US 5,672,639.

4. The rejection set forth under 35 USC 103 in the paper mailed 2/17/06 is deemed proper and is herein repeated. The newly amended claims and remarks filed in support thereof have been fully considered but have been found not persuasive.

5. Applicants have amended the claims so as to limit the minimum average particle size of the particle (C) to 30  $\mu\text{m}$ . Applicants argue that the art is limited to particles having a particle size of "less than 25  $\mu\text{m}$ ." The examiner maintains that given the breadth of the claimed range and the prior art is only 5  $\mu\text{m}$  different from the claimed particle size, that the claimed 30  $\mu\text{m}$  is prima facie obvious from the disclosed 25  $\mu\text{m}$ .

Art Unit: 1713

Obviousness does not require absolute predictability but rather a reasonable expectation of success. One of ordinary skill would have a reasonable expectation of success when using particles having a size of 30  $\mu\text{m}$  as claimed. The allegation of unexpected results and the showing at TABLE 1 has been fully considered. There is no comparative data relative to the particle size shown in the art and that claimed.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter D. Mulcahy whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
